

# DASHBOARD ELD

Welcome to the ELD

Essentials Quick Start Guide

This manual will help you get started with your Electronic Logging Device (ELD).

- **Install ELD Hardware**

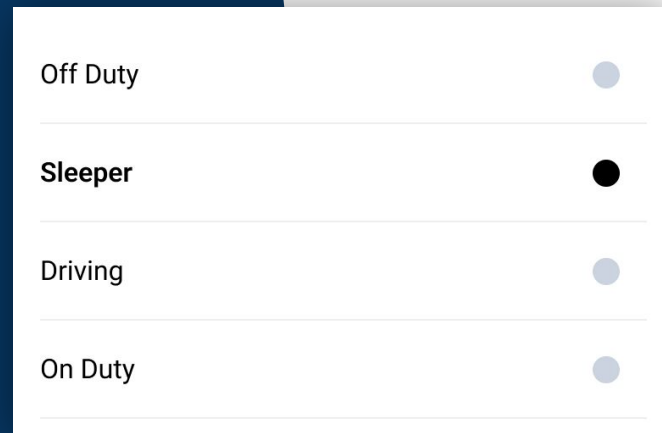

Firstly, identify the ECM (diagnostic) port in your vehicle. Depending on your vehicle type, connect the ELD hardware using the appropriate 6-pin, 9-pin, or OBDII cable provided. Mount the device on your dashboard to ensure visibility.

- **Download the Mobile App**

Visit your device's app store, search for the ELD app, and complete the installation process.

- **Log into the Mobile App**

Enter the login credentials supplied by your fleet manager. After logging in, select your vehicle from the provided list.

- **Manage Duty Status**  
Effortlessly toggle between different statuses through the app's intuitive interface. Driving time is recorded automatically.
- **Certify Logs**  
Regularly sign and certify your logs to comply with regulatory requirements.
- **Create DVIRs**  
Regularly generate Vehicle Inspection Reports to keep your vehicle in optimal condition.
- **Access DOT Inspection Mode**  
Activate this mode during roadside inspections for ease of compliance.
- **Review HOS Violations and Warnings**  
Receive instant alerts about potential Hours of Service (HOS) violations.

- **Access the Online Portal**

Use your credentials to log into the portal where you can monitor compliance and vehicle performance.

- **Transfer Logs**

Easily send logs for a specific range of dates to the FMCSA officer during the DOT inspection.

- **“Yard Move” and “Personal Use”**

Allow/disallow "Yard Move" and "Personal Use" statuses to meet the unique operational needs of your drivers and fleet, ensuring compliance and efficiency.
