Log In

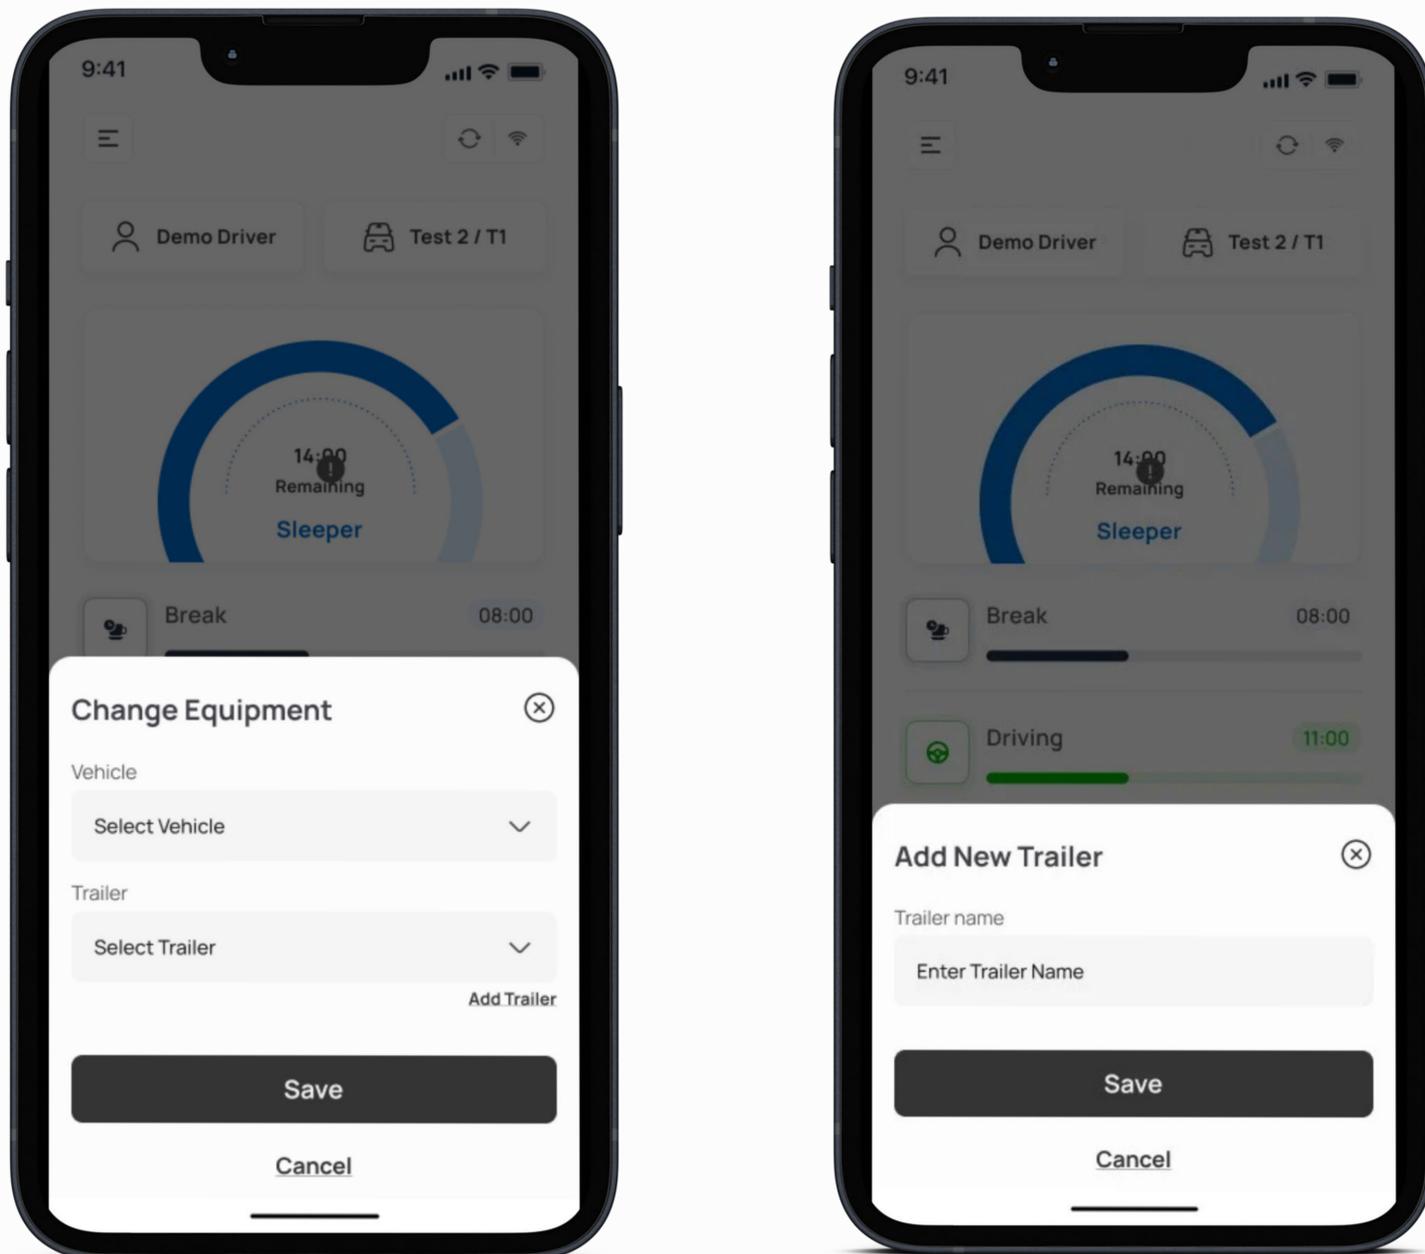

- Open the Driver App
- Enter your email.
- Enter your password
- Click on login button

Connect to Vehicle

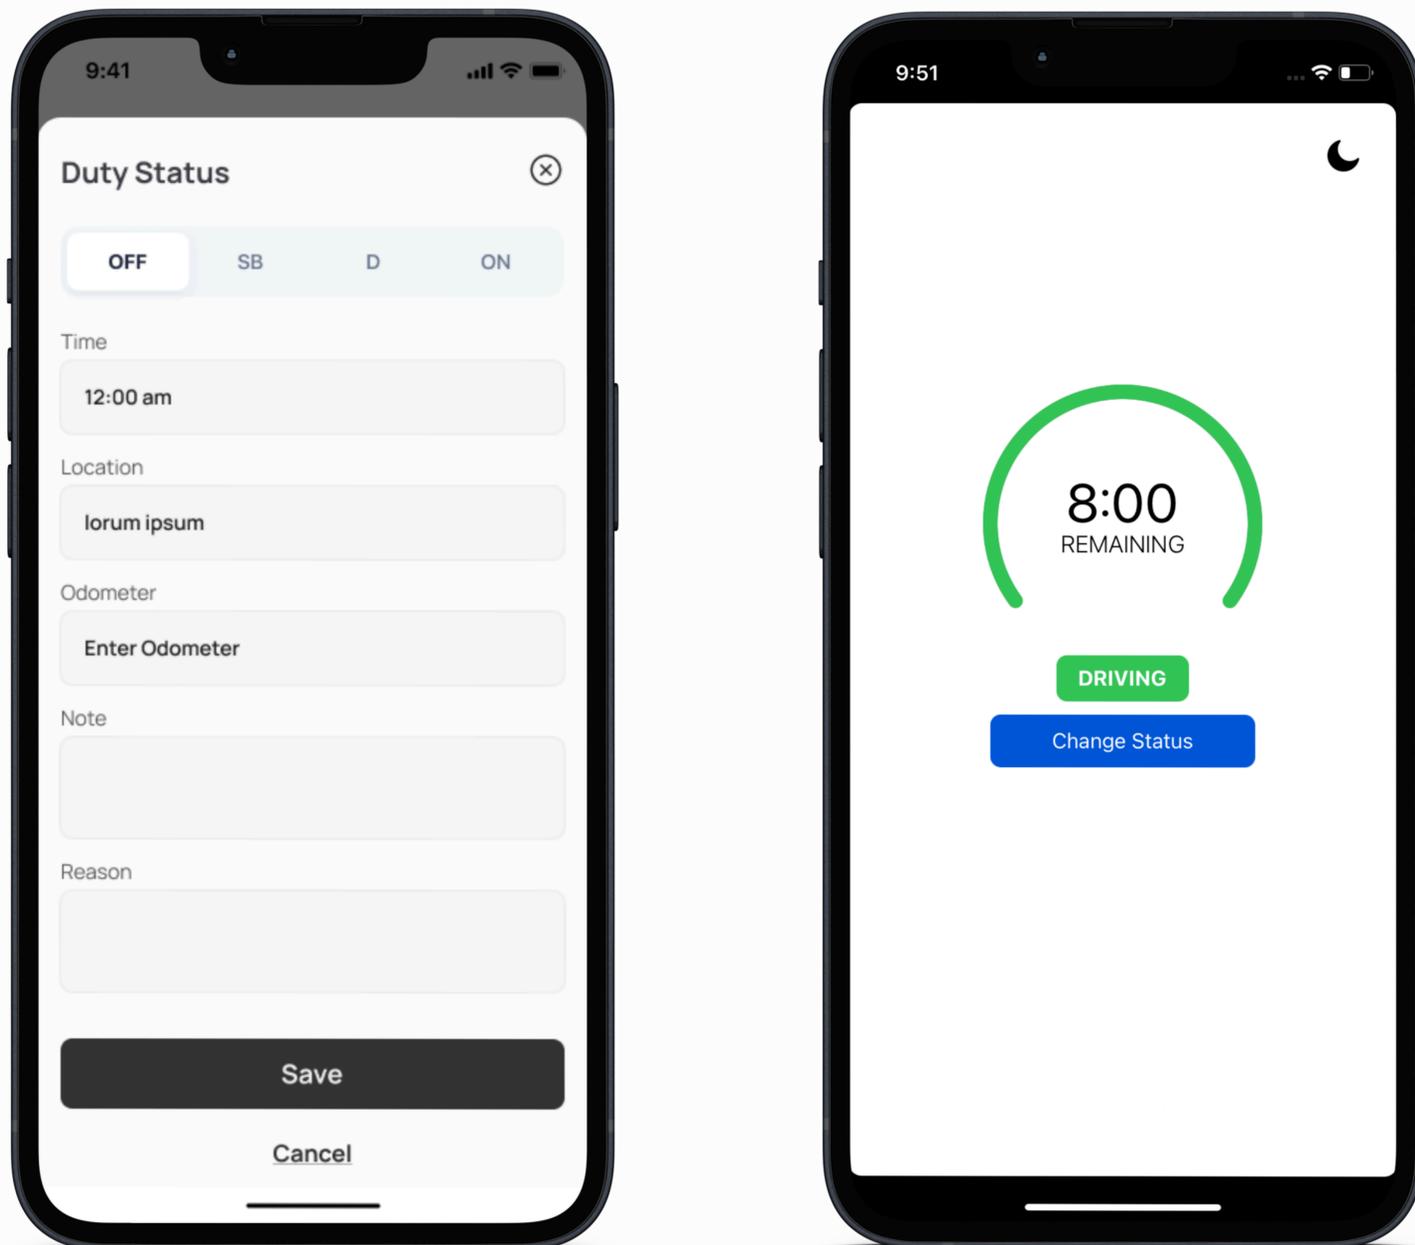

- On the Logs page, tap on connect signal the top right corner
- A search bar and list of all Device will appear. Select the Device that you want to connect.
- A green ELD icon will appear in the top right corner of the main page to indicate that you have successfully connected

Vehicle & Trailer

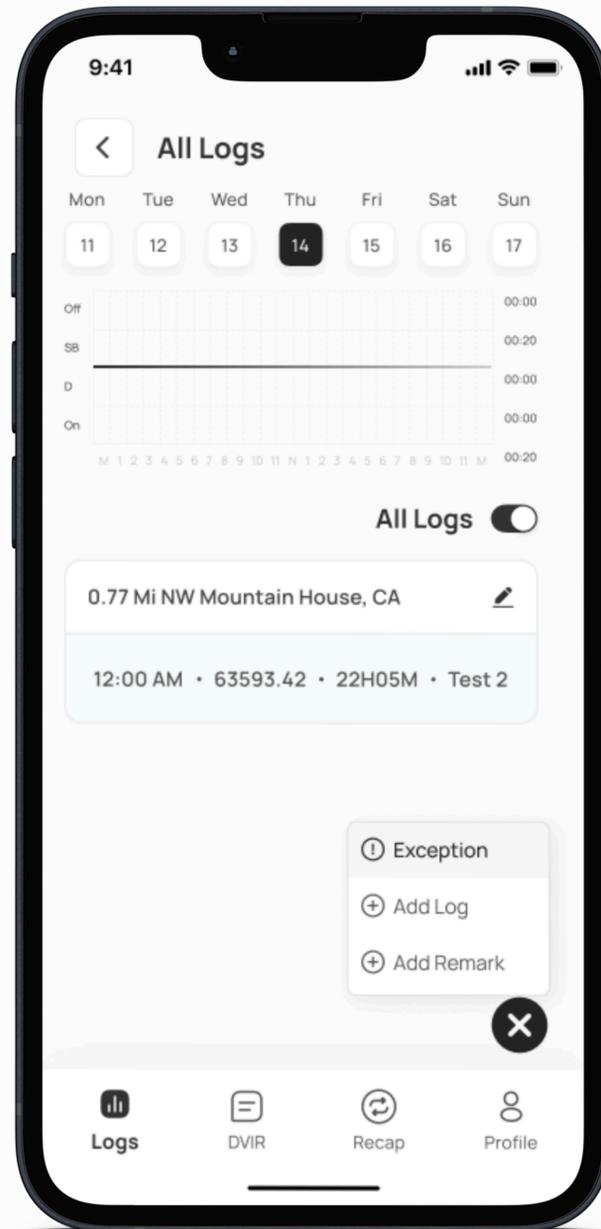

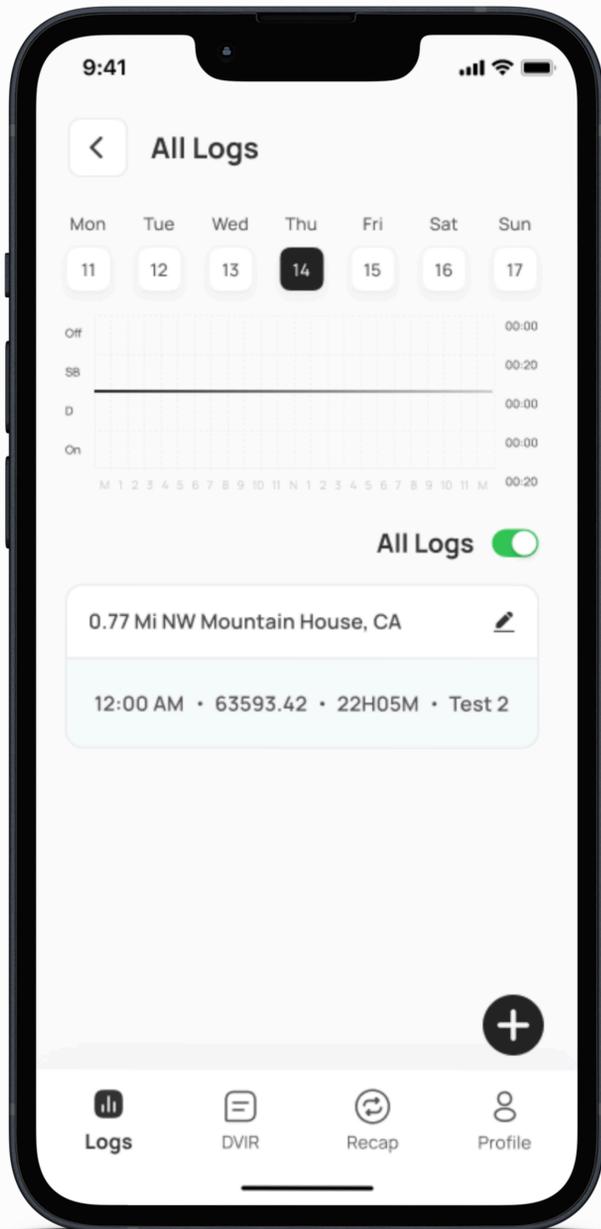

- Press Vehicle icon next to your name.
- Press vehicle Name and select Vehicle.
- Press Trailer Name and select Trailer.
- Press the Save button

Change Duty Status

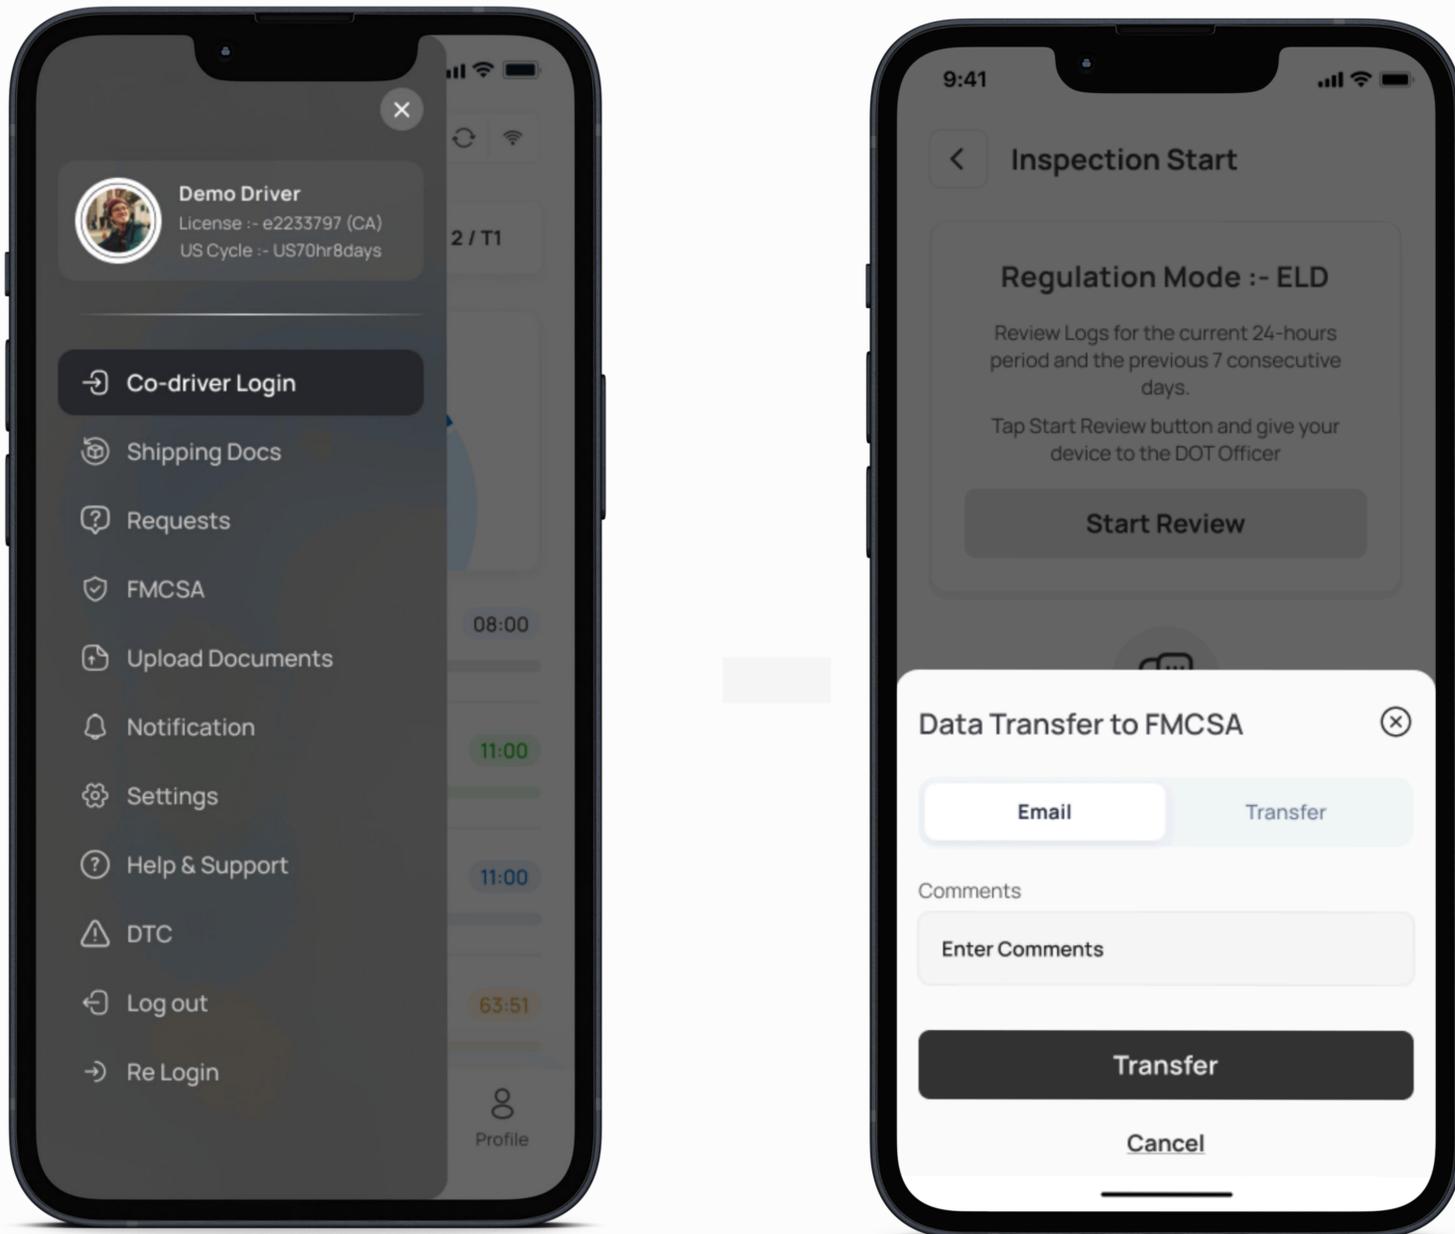

- By selecting OFF DUTY, SLEEPER, or ON DUTY from the list of alternate statuses, you can modify the vehicle's current duty status.
- Eld automatically changes your current duty status to DRIVING when the vehicle exceeds a speed of five miles per hour (mph).

View duty status

- Press the logs button at the bottom.
- Current day logs will show there.
- Select the date to view previous logs.
- Press to cross button on bottom right corner.
- Add any exception, add logs, and add any remark.

Roadside Inspection data transfer

Supported and certified data transfer mechanisms

- Option 1—Telematics using both: Wireless Web services and Email
- Option 2—Local using both: USB2 and Bluetooth

Roadside Inspection data transfer

Step-by-step instructions for a driver to produce and transfer the ELD records to an “authorized safety official”

Transfer via email: -

- Click on Roadside Inspection in the left menu.
- On Roadside Inspection screen click on “Email”
- Comment box will open.
- Users will enter a comment and then click on "Send Logs".
- Success message should be displayed.

Transfer via Web services: -

- Click on Roadside Inspection in left menu.
- On Roadside Inspection screen click on “Transfer”
- Comment box will open.
- Users will enter a comment and then click on "Send Logs".
- Success message should be displayed.

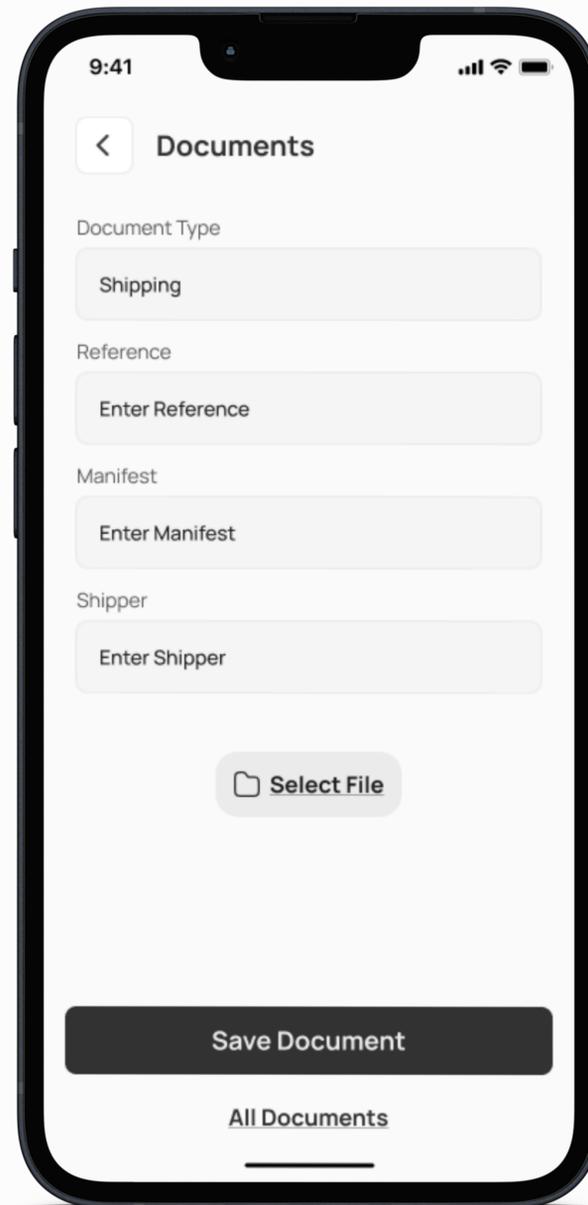

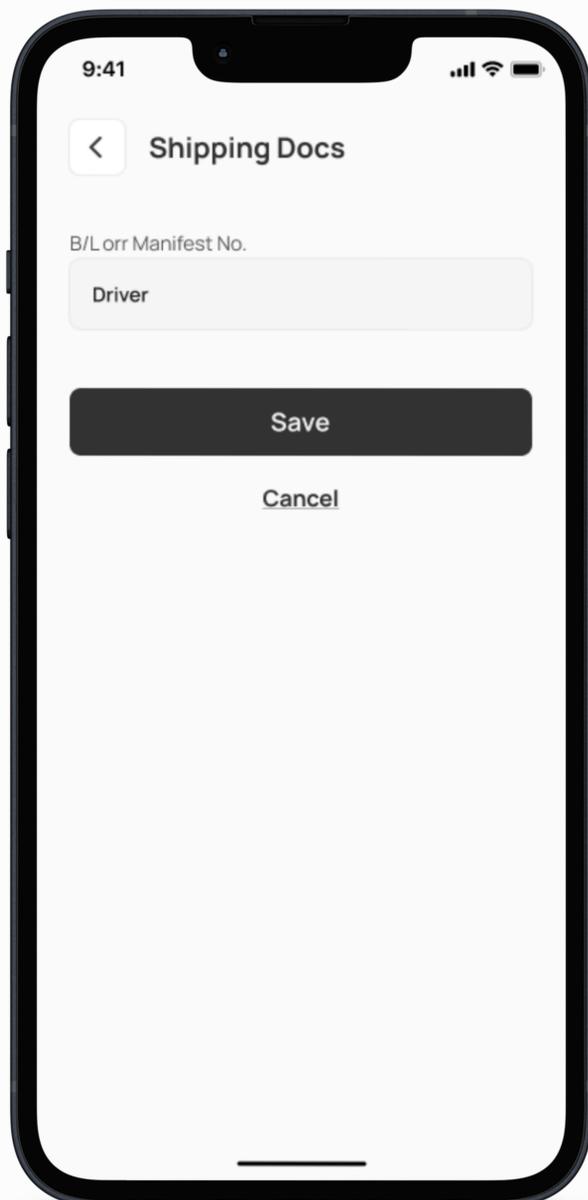

Local using USB2: -

- Connect USB2 to Eld
- Click on Roadside Inspection in the left menu.
- On Roadside Inspection screen click on “Transfer”
- Comment box will open.
- Users will enter a comment and then click on "Send Logs".
- Success message should be displayed.

Local using Bluetooth: -

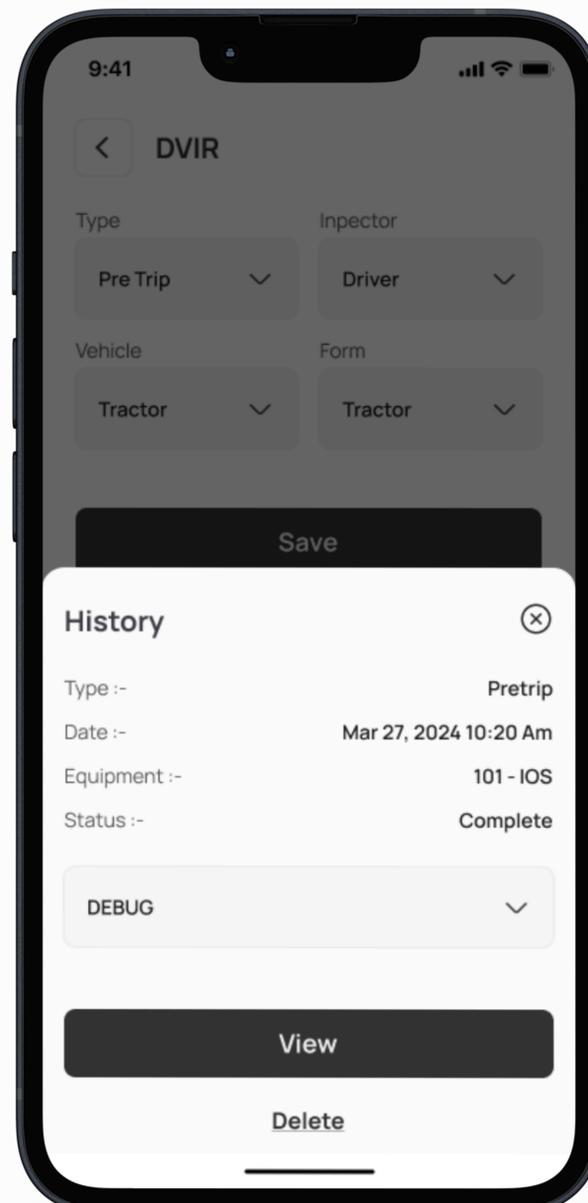

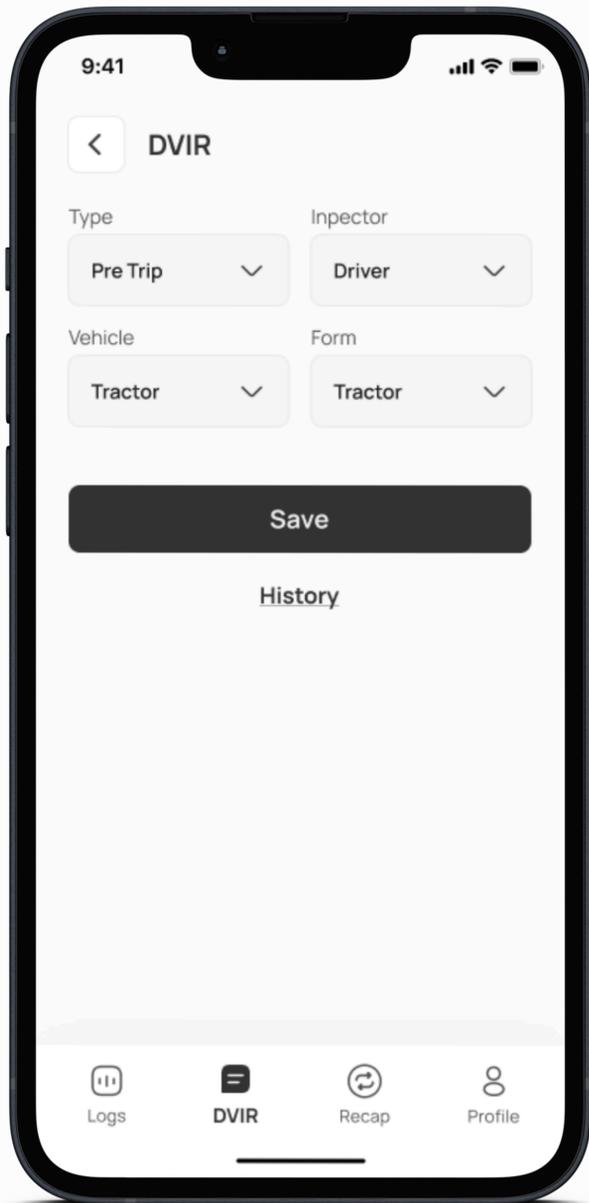

- Connect Eld to a Bluetooth device.
- Click on Roadside Inspection in the left menu.
- On Roadside Inspection screen click on “Transfer”
- Comment box will open.
- Users will enter a comment and then click on "Send Logs".
- Success message should be displayed.
